

Utilization of proper cable-pulling lubricants is essential in obtaining optimum results. MaxLube was specifically designed to improve MaxCell's performance under the most challenging applications. MaxCell used with MaxLube provides the fastest pull possible, reducing installation times significantly.

- Lubricates with a very thin film, performs just as well after drying
- Compatible with common cable jackets including polyethylene
- Easy application with pre-saturated wipe, re-saturate wipe with spray bottle as needed
- Perfect for OSP, drop and data cables
- Non-staining, quick cleanup

MaxLube is a convenient lubricant for pulling fiber optic cables with wipe-and-spray application. Because it's concentrated, only a thin film is required for immediate tension reduction that lasts. Just spray or wipe the cable as it enters the MaxCell sleeve. It's quick and easy to use, without mess or excess lubricant.
